

DORI VOSITALARINI BERISH UCHUN RETSEPT YOZISHNING ASOSIY MAQSADLARI

Maxmudov Z.M. ¹, Xamidov X. ²

Annotatsiya:

Ushbu maqolada lotin tili darslarida dori vositalarini berish uchun retsept yozishning asosiy maqsadlarini o'rgatishda talabalarga tushunish oson va samarali bo'lishi uchun zaruriy qoidalar haqida so'z yuritildi.

Kalit so'zlar: dori, retsept, sog'liqni saqlashi, shifokor, dorixona xodimi, farmatsevtika, nazorat, javobgarlik, monitoring.

O'zbekiston Respublikasida retsept yozishning asosiy maqsadi bir necha muhim jihatlarni o'z ichiga oladi. Retsept, asosan, shifokor tomonidan bemorga dori vositalarini belgilash uchun rasmiy hujjat sifatida ishlatiladi va uning yozilishi quyidagi asosiy maqsadlarni ko'zlaydi:

1. Bemorning sog'lig'ini yaxshilash

• To'g'ri dori vositasini tanlash: Retsept yozish orqali shifokor bemorga uning kasalligi va ahvoriga mos keladigan dori vositalarini belgilaydi. Bu dori vositalarining samarali va xavfsiz ishlatilishini ta'minlaydi.

• Doza va foydalanish tartibini belgilash: Retseptda dori vositasining dozasi, qabul qilish vaqti va davomiyligi aniq ko'rsatiladi, bu esa bemorning sog'lig'ini yaxshilashga yordam beradi.

2. Noto'g'ri dorilardan foydalanishning oldini olish

• Noqonuniy dorilarni sotib olishning oldini olish: Retsept, ayniqsa kuchli ta'sirga ega dori vositalari (masalan, narkotik moddalar yoki kuchli antibiotiklar) faqat shifokor nazorati ostida olish imkonini beradi, bu esa dori vositalarining suiiste'mol qilinishining oldini oladi.

• Yon ta'sirlarning oldini olish: Retsept orqali dori vositasining potentsial yon ta'sirlari va boshqalar bilan o'zaro ta'siri hisobga olinadi, shifokor bu haqida bemorni ogohlantiradi.

3. Farmatsevtik nazoratni ta'minlash

• Dori vositalarining monitoringi: Retsept orqali aptekalarda dori vositalarining realizatsiyasi nazorat qilinadi. Bu tizim dori vositalarining faqat rasmiy retsept bilan sotilishiga imkon beradi va soxta yoki noqonuniy dorilarning tarqatilishining oldini oladi.

• Dori vositalarining hisobini yuritish: Retseptlar orqali dorilarning to'g'ri taqdim etilishi va ularning hisoboti olib boriladi, bu esa farmatsevtika sohasida shaffoflikni ta'minlaydi.

4. Shifokor va bemor o'rtasidagi o'zaro aloqani kuchaytirish

• Shifokorning javobgarligi: Retsept yozish, shifokorning bemorga beradigan tavsiyalarining rasmiy hujjati sifatida, uning javobgarligini oshiradi. Bu bemorning to'g'ri davolanishini ta'minlashda shifokorning o'z vazifasini bajarishini ko'rsatadi.

• Bemorning dori vositalari haqida ma'lumot olishiga yordam beradi: Retseptda bemor dori vositasini qanday qabul qilishi kerakligi, uni qachon va qanday miqdorda olish zarurligi haqida aniq ma'lumot oladi.

5. Farmatsevtik va tibbiy tizimni tartibga solish

• Nazorat va tasdiqlash: Retseptning mavjudligi dori vositalarining faqat maqsadga muvofiq tarzda, rasmiy va qonuniy ravishda berilishiga imkon yaratadi. Bu tizim orqali dori vositalarining noqonuniy savdosi yoki to'g'ri bo'lmagan foydalanishining oldi olinadi.

• Tibbiy xatoliklarning oldini olish: Retsept yozish orqali shifokor, dori vositasining bemorga to'g'ri tanlanishini va to'g'ri dozada berilishini ta'minlaydi. Bu, o'z navbatida, tibbiy xatoliklarning oldini olishga yordam beradi.

6. Sog'liqni saqlash tizimining samaradorligini oshirish

• Tizimli monitoring va baholash: Retsept yozish orqali dori vositalarining ishlatilishini kuzatish va tahlil qilish mumkin bo'ladi. Bu, o'z navbatida, sog'liqni saqlash tizimining samaradorligini oshirishga yordam beradi.

¹ Maxmudov Zafar Mardanovich, Samarqand Davlat tibbiyot universiteti Tillar kafedrasida assistenti

² Xamidov Xasan, Samarqand Davlat tibbiyot universiteti Farmatsiya fakulteti talabasi

• Davolash jarayonini to'liq nazorat qilish: Retsept orqali davolash jarayonining barcha bosqichlari shifokor va bemor tomonidan nazorat qilinadi, bu esa davolanishning to'g'ri va samarali o'tishini ta'minlaydi.

7. Shifokorlarning professional javobgarligi

• Javobgarlik va monitoring: Shifokorlar tomonidan yozilgan retseptlar, ularning bemorlar oldidagi professional javobgarligini ta'minlaydi. Shuningdek, bu tizimda bemorga noto'g'ri dori tayinlash yoki boshqa tibbiy xatoliklarni kamaytirishga yordam beradi.

Xulosa. O'zbekiston Respublikasida retsept yozishning maqsadi faqat dori vositalarini bemorga aniq va xavfsiz tarzda etkazib berishdan iborat emas, balki sog'liqni saqlash tizimini tartibga solish, noto'g'ri dori foydalanishining oldini olish va shifokorlar va bemorlar o'rtasidagi aloqalarni mustahkamlashni o'z ichiga oladi. Bu barcha maqsadlar, o'z navbatida, odamlarning sog'lig'ini saqlash va farmatsevtika sohasidagi xavfsizlikni ta'minlashga xizmat qiladi.
